Get Out of Your Creative Rut!

How many times have you stared at a pile of paper crafting supplies with no clear direction in your mind? It happens to even the most creative person, and the trick is figuring out how to trigger a single thought that leads you down a new path. That's exactly how this special issue was born, and you'll find not one, not two, but 75 clever triggers for card-making creativity within these pages. And thanks to some very talented contributors in this issue, we're able to bring you each challenge used in several different ways.

You'll find ideas galore, with challenges to use everyday items in creative ways or new takes on common crafting supplies. It may be as simple as using lyrics from a popular song to create a card sentiment, or re-coloring a ribbon, jewel, or flower to match your card's color scheme. There are even ways to use your tools and supplies in completely unexpected ways, as Jaclyn Miller did in the project below. She used hot glue that comes in an opaque red color and created a faux wax seal by pressing a clear stamp into the pool of warm glue. This would be a great technique to use for making monogram "seals" for envelopes, too.

After you've feasted your eyes on all the creative projects, you won't want to miss all the tasty tips, tricks and how-to help we've captured from the project designers, either. Just because something looks the way it does in a photo doesn't mean there isn't an intriguing secret behind the design. Take it all in and then get cooking in your creative space!

Here's to the power of a challenge,

Jennifer Schaefer
Editor in chief

Challenge #4

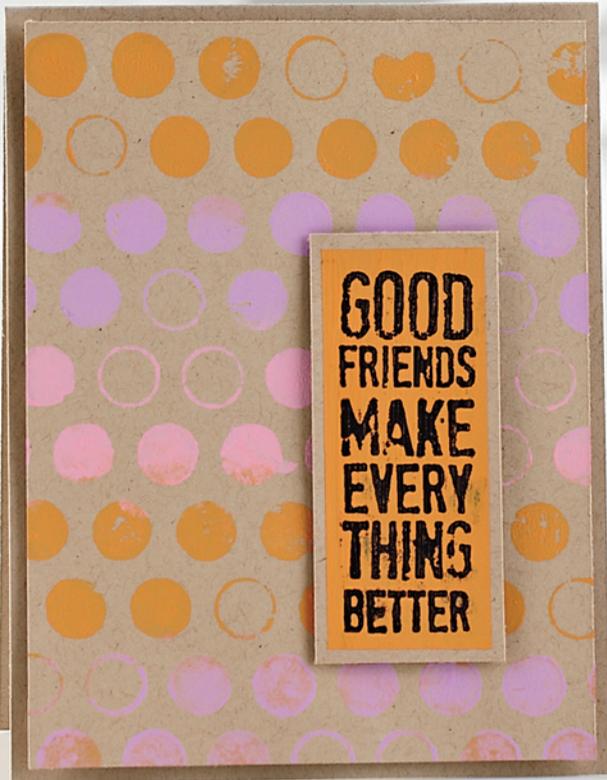

STAMP WITH PAINT

DESIGNER TIP

When using paint on stamps, be sure to clean them immediately after use.

DESIGNER TIP

Use a sponge to apply paint to your stamp so you get even coverage. Too much paint might cause the stamp to slide on your paper when stamping.

II Good Friends

Designer: Cheiron Brandon

1 Make card from cardstock. 2 Apply paint to Life of the Party Dots, stamp cardstock, and trim. Adhere with foam tape. 3 Paint cardstock, let dry, and stamp sentiment. Trim and adhere with foam tape.

SUPPLIES: Cardstock: (white) Rubber stamp: (maple leaf from Gently Falling set) Stampin' Up! Clear stamp: (sentiment from Simple Salutations set) Market Street Stamps Dye ink: (Tuxedo Black) Tsukineko Paint: (red)

DESIGNER TIP

Watering down paint will make it slightly easier to work with and will give a cleaner impression with stamping.

DESIGNER TIP

Embrace the imperfections that come with stamping with paint as part of your design.

Life Is Sweet

Designer: Betsy Veldman

- 1 Make card from cardstock.
- 2 Trim patterned paper and affix border sticker.
- 3 Stamp sentiment on cardstock. Stamp roses and leaves with paint, trim, and stitch top edge. Adhere to panel.
- 4 Fold butterfly die cuts, layer, and adhere. Stitch along fold.
- 5 Thread buttons with twine and adhere.

Challenge #9

USE BLEACH

DESIGNER TIP

Bleach pens are a great product to use for stamping techniques. The bleach is thicker than standard bottled bleach, making it easy to use in lieu of ink on a stamp.

DESIGNER TIP

Pour bleach into a water bottle and use it like a mist. Lightly spritz it onto cardstock. Wait a few minutes, and you'll see the bleach change the color of the cardstock.

Bleached Zigzag Hey

Designer: Julie Campbell

- 1 Make card from cardstock. 2 Apply bleach pen to stamp, stamp cardstock, and trim. 3 Wrap ribbon, tie bow, and affix border sticker. 4 Adhere panel to card and zigzag-stitch right and left edges. 5 Adhere chipboard banner, adhere shipping tag, and affix tape. 6 Affix letter stickers to spell "Hey". 7 Adhere rosette. Thread button with twine and adhere.

Material Girl taught by Megan Hoepfner

There's a little "material girl" in all of us, and this class will bring her out and right onto your layouts. Add popular textures to your layouts, including material, pom pom ribbon, embroidery floss, and other notions. Learn to create four flower accents using both felt and adhesive-backed fabric. Plus, learn new paper piercing techniques and how to hand stitch elements right on to your layout. There is even a coordinating kit to go with this class.
